Giant Fossil Discovered

Researchers at Nassau Community College discovered the fossil of a giant professor buried beneath the foundation of the Tower. It is speculated that the tower was actually built to prevent the professor from returning to life and wrecking havoc with ...

Mets Defense Loses

In one inning Angel Pagan hit a single, David Wright hit a double and Carlos Beltran hit a triple but unsurprisingly the Mets found a way to lose. If Santana hadn't given up 8 runs in the following inning that offensive explosion might have been enough to win the game...

Name a variable

Angel Pagan

No! Variables must have values

Mets players

That's right!

Mets Defense Loses

We just found a variable

Mets Players

Right

What variable depends on players?

The single?

Multiple values!

The double?

What is the single and double?

hits?

Right, hits is the dependent variable

Mets Defense Loses

In one inning Angel Pagan hit a single, David Wright hit a double and Carlos Beltran hit a triple but unsurprisingly the Mets found a way to lose. If Santana hadn't given up 8 runs in the following inning that offensive explosion might have been enough to win the game...

Why is the function interesting?

David Wright?

No, why tell the reader?

Um, many Mets got hits

Right!

Name a variable

Forecast

Good, what's another variable

Time

That's great! Which one is independent?

Forecast?

Can you tell the time from the forecast?

No, so forecast is dependent?

Right!

Eastside Home Invasion

At 8pm a young wife answered her bell. By 8:15 she and her husband were tied up in the dining room while 3 large thugs remained there house. By 8:45 their car was vandalized. By 9:10 their house was on fire. At 9:20 a neighbor called the fire department. At 9:38 the fire department arrived at the scene and the thugs had fled. If you have any information about these criminals you are urged to call the crimstoppers hotline...
